
Welcome to the February 1, 2026, edition.
We're sharing a few recent updates and resources to help you stay informed. Below, you'll find product updates along with selected blog posts from the Jumbula team.

📱 **Push notification in the My Jumbula app**

📊 **Live attendance report for partner dashboards**

📝 **Jumbula Blog Articles**

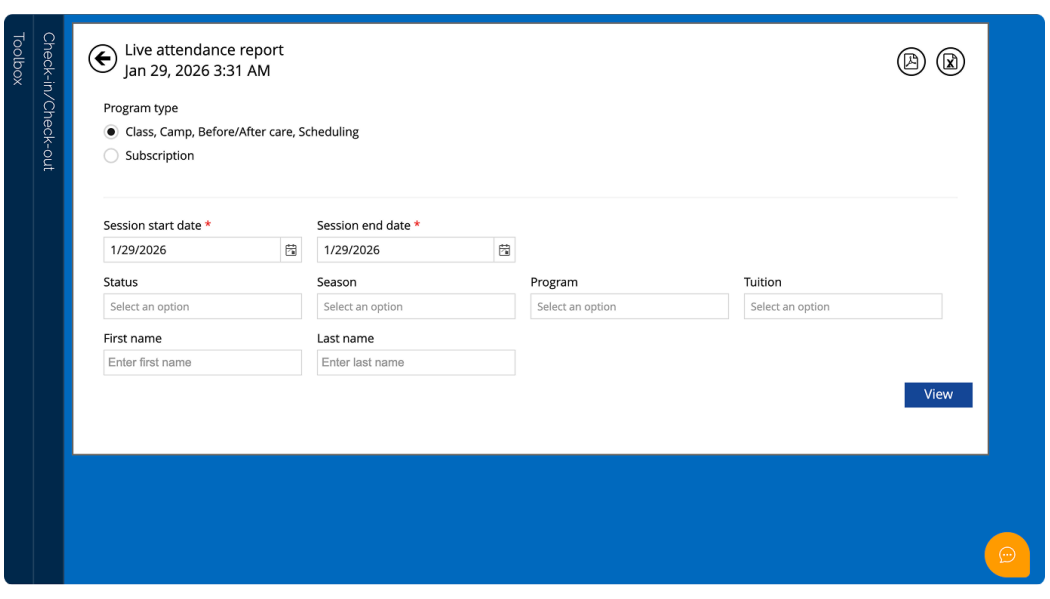
📺 **About the Jumbula Showcase**

📣 Recent Updates

Push notification in the My Jumbula app

Version 2.0 of the **My Jumbula app** introduces instant notifications to keep families informed about their **enrollments** and **waitlist** status. Families receive timely updates, helping them stay informed without having to check the platform manually.

Live attendance report for partner dashboards



A new update adds access to the live attendance report in **Partner Dashboards**. Previously unavailable, this report now allows partners to view attendance in real time and apply filters to narrow results by **status**, **date**, **name**, and other criteria, making it easier to review and track attendance as it happens.

If you need more information about attendance reports, you can check out How to run attendance reports in our knowledge base.

📺 About the Jumbula Showcase

Jumbula's Showcase program provides organizations with a way to share their programs and approach with the broader Jumbula community. It offers space to explain your mission, describe your offerings, and highlight what makes your programs distinct, whether you run camps, classes, or year-round activities. Participating organizations complete a short Q&A, and the Jumbula team prepares the feature for publication.
